

**Climate Committee Meeting Agenda
Wednesday, August 9, 2023
Campton Town Hall Community Room
12 Gearty Way, Campton NH 03223
Time: 10:30-12:00 p.m.**

1. Membership of community power committee: Campton has officially joined the NH Community Power Coalition and the Select Board has officially established the town Electric Aggregation Committee. The next step is for the Select Board to appoint the members so that we can begin the official work of drafting the electric aggregation plan. We will discuss ways that the climate committee can assist in this process.
2. Charrette: The town has set public meetings with respect to developing the Plan NH charrette for Campton. We will discuss possible ideas to present in these sessions and how the Climate Advisory Committee can best support these efforts.
